The *Social Diagnosis* research project, although it is mainly financed through private means, is of a public character. All those who are interested may download all tables with the frequency distribution of responses\* and the database containing the accumulated data from four waves (in the years 2000, 2003, 2005 and 2007) free of charge from the website [www.diagnoza.com](http://www.diagnoza.com).

\* In all sets of tables with frequency distribution of responses, the order of variables from the questionnaires has been maintained.
